A chart showing the performance of various cryptographic hash functions on the Horizontal axis: Message length, bytes. Vertical axis: Time, cycles. The chart includes functions such as asconhashv12, asconxofv12, xoodyakv1, gimli24v1, saturninhashv2, drygascon128, esch256v1, knot256v2, knot512, knot256v1, knot512v1, knot512, knot384, knot256v1, knot384v1, knot256v2, and skinnyhashtk2. The chart is an excerpt from the NIST Lightweight Cryptography Standardization Project.
