Table of processor specifications and benchmarks. Each row corresponds to a processor model listed on the left. The table includes details such as core count, clock speed, and specific processor identifiers. For example, the first entry is 'bBobcat: 2 x 1650MHz; 2011 AMD G-T56n; amd64; Bobcat (600F10); supercop-20230630'. The table continues with many other processor models like m4450, naca, gcc16, hydra3, etc., each with its own set of specifications and benchmark identifiers.
