Table of processor specifications and benchmarks. Each row corresponds to a processor model listed on the left. The table includes details such as core count, frequency, and specific processor variants. A 'supercep' column provides a performance score for each processor, often with a reference value in parentheses. For example, 'amd64 Bobcat' has a supercep of 20230630, and 'amd64 Zen 3' has a supercep of 20210126.
